COMMENTS:
☐ This parcel is located within the Great Basin Water Co. service tariff area.
If interested in more information, please email: nvdeveloper@greatbasinwaterco.com for service application.

All new service laterals and extensions now require NDEP review and approval. All fees must be in the form of Cashier Check. Inquiries are valid for 30 days. Tariff fees are not inclusive of all development costs that may be applicable for receiving new service. These costs may include water right review fees, engineering review fees, NDEP submittal fees and construction costs. Above is provided to give the inquirer a general idea of what extension distance & costs may be when developing a parcel. **Prior to starting a project the developer must complete and submit a GBWC Service Application packet to begin the process.**
